## MYSTIC WINE

---

Mystic...the word conjures up images of the unknown, the lost spaces of humanity, and the secrets of spiritual and material worlds. There is no mystery about how delectable our wines are. Join the many that have come to know this honest truth in the world. Good wine is good for the soul and this is darn good wine!

## Our Story

Mystic Wines was started by Rick Mafit in 1992. Rick spent several years making wine in California's Sonoma and Mendocino Counties, before bringing his love of 'big red' varietals north to the Willamette Valley. He then went on a search for the best big red wine grape growers in Oregon, which he found in the Columbia Valley. Merlot, Zinfandel, Syrah, Barbera and Cabernet Sauvignon soon become his staples and what Mystic became very well known for. Mystics' estate has two distinct plantings; the Pinot Noir vineyard 'Home Ranch', all Pommard clone, was planted in 2002 and a recently planted block of Dolcetto called the 'Flying Gopher Block', which will be mature enough to harvest this year 2016!

We are so excited!

Mystic Wines iconic monochromatic label was designed by Ricks' eldest son, Dillion, who was just 12 years old when he created it. The label has proved to be memorable and unique in the wine industry. It is the perfect invitation to what is held in each Mystic bottle; excellent wines that are artfully created by a man who simply loves to make, drink and share honestly great red wines. Enjoy!

## Members Enjoy
